ALDERMAN BURNETT OBJECTED TO PAYING BILLS

Contention Was Founded Upon State Law, But Council Voted Against the Motion.

The City Council met in regular session August 3rd at 8 p. m. with President Broome, Aldermen Burnett, Colclough, Goodwin, Graves, Phifer, Pound, and Clerk Dell present.

Upon motion of Alderman Phifer the Marshal's report of \$159.80 was received and ordered filed. Also Collector's report for \$2,449.83 for water rents and taxes, and licenses, \$124.64.

The following bills were read and ordered paid from Street Fund: Gainesville Hardware Co., \$118.35; A. W. Taylor, \$71.75; F. T. Thomas, \$6.25; T. P. Boulware, \$25; B. F. Miller, \$18.80; S. M. Davis, \$43.06; Gainesville Foundry and Machine Works, \$173.76; B. F. Miller, \$173.95; C. M. Dell, \$182.25; E. J. Williams, \$4.50; John Collins, \$4; W. C. Adamson, \$8.77; C. M. Dell, \$100; J. B. Dell, Jr., \$25; J. M. Haile, \$25; Benson & Son, \$2.50; Mrs. Lois Tucker, \$50; John Chesnut, \$12.50.

Contingent Fund—Alachua County Abstract Company, \$5; S. H. Wienges, \$5.50; Mrs. H. H. McCreary, for ceme-

tery sexton, \$35; J. M. Dell, 75 cents; T. B. Ellis, \$2.50.

Officers' Fund—B. T. Arnow, \$60; Harry Owens, \$50; J. M. Dell, \$40; T. B. Ellis, \$36.43.

Light Fund—Gainesville Gas and Electric Power Company, \$238.50.

Printing Fund—Daily Sun, \$129.

Fire Fund—Gainesville Gas and Electric Power Co., \$6.45; R. W. Bowman, \$2.25; J. A. Naftzger, \$4; W. S. Dorsey & Co., \$35.49; Benson & Son, \$4.65; J. E. Mowyers, \$55; L. A. Jernigan, \$40.

Waterworks Fund—Daily Sun, \$1.20; E. J. Williams, \$3; O. F. Gardner, \$22.54; E. A. Strunk, \$63.48; T. B. Ellis, \$49; Gainesville Foundry and Machine Works, \$7.75; B. F. Miller, \$1.80; Gracy Lumber Company, \$75; Ned Williams, \$7; B. E. Tallant, \$3.40; S. M. Davis, \$2.

The following bills were laid aside upon motion of Alderman Burnett for the reason that the State law prohibited the paying of same for a member of the firm had to vote on same:

Baird Hardware Company, \$45.52, \$5.10, and \$137.77. Alderman Graves moved to pay the bills out of their respective funds. Roll called and every member voted "aye" with exception of Alderman Burnett, who voted "no" because the State law was being violated.

The bill of Phifer Bros. for \$2.85 was read. Alderman Graves moved to pay same out of Fire Fund. Roll called, President Broome, Aldermen Burnett and Colclough voting "no," Aldermen Goodwin, Graves and Pound "aye" and Alderman Phifer not voting.

Alderman Graves moved that rules be waived and pay Fabric Fire and Hose Company \$903.81, and B. T. Arnow \$5.25; carried.

Alderman Burnett moved that a committee of three be appointed to investigate the report of the Board of Public Works, which was read, regarding some discrepancy. Carried, and President appointed Aldermen Goodwin, Phifer and Burnett.

Reports of the Auditor on the accounts of City Clerk and Treasurer, Tax Collector and City Marshal were read. Alderman Phifer moved that the reports be received and filed. Carried.

The following recommendation was made by the Mayor, Chairman of Finance and Chairman of Ordinance Committees: "Acting under ordinance approved Dec. 9, 1898, we hereby instruct the City Clerk to cancel the tax sale certificate against the E½ of N½, Block 8, Brush's Addition, for taxes of 1887 upon the payment of \$8.95.

(Signed) "HORATIO DAVIS, Mayor.

"G. K. BROOME, Chairman Finance
"J. A. GOODWIN, Chairman Ordinance."

Alderman Burnett moved report be received and entered upon the minutes, which was carried.

Alderman Goodwin moved that the Clerk notify the Seaboard that the city would continue to furnish them water at \$30 per month, but would not enter into any contract.

Alderman Pound moved that the fire chief be authorized to purchase an eight-day clock.

Alderman Goodwin moved that Collector Ellis be granted the use of the city's old desk, which was agreed to.

Alderman Phifer moved that Street Committee repair cow pound; carried.

Upon motion of Alderman Pound, the Street Committee was instructed to get sealed bids for single and double teams for city work; carried.

Alderman Burnett moved that the shed for the city sprinkler and roller be placed upon the Barracks lot and same enclosed. Roll called, Aldermen Goodwin and Burnett voting "aye," President Broome, Aldermen Colclough, Graves, Phifer and Pound voting "no."

Alderman Graves moved that the shed be moved to a point just east of where it now stands. Vote called, all members voting "aye" but Alderman Burnett.

Alderman Burnett moved that Mr. Lloyd be allowed to complete the sidewalk as begun. Roll called; President Broome, Aldermen Burnett and Goodwin voting "aye," Aldermen Colclough, Graves, Phifer and Pound "no."

Alderman Phifer moved that the Mayor be instructed to remove the encroachments from Seminary street. All members voting "aye" except Aldermen Colclough and Goodwin, who did not vote.

Alderman Phifer moved that the Street Committee look after the erection of sidewalks and require persons building sidewalks to do so under direction of the Street Committee. Carried.

The matter of crossing on Grove street was referred to Street Committee to have railroad company fix same.

Adjournment was taken until next Monday evening.

NEW UNIVERSITY BUILDINGS TO COST \$160,000

Contracts for Two Handsome New Structures Have Been Awarded to Atlanta Contractor.

The contracts have been awarded for two additional buildings at the University of Florida, which, when finished, will cost in the neighborhood of \$80,000 each, and work is to commence on them immediately.

This is the gratifying information received from the meeting of the State Board of Control which was held in Jacksonville, and which was attended by Dr. Murphree for the past two days. He was successful in receiving other valuable considerations from the body.

Besides the order requiring work to be started on the two new buildings, a library was ordered consisting of over 3,000 volumes, giving the University the largest and best working law library in the State outside of the Supreme Court.

The Science building will be 250x62 feet, containing two stories and basement, and independent of the heating plant will cost \$68,000. The other building will be the Experimental building for the Florida Experimental Station, which will contain three stories besides the basement. This building is to be 128x62 feet.

The successful bidder for the work

was Contractor Cain of Atlanta, and he will commence at once to get his arrangements made for commencement of the work.

Dr. Murphree stated that the prospects for attendance were indeed very flattering and that he feared they would be unable to accommodate the students in Buckman Hall. Already there have been reservations made for fifty-two rooms. Doctor Murphree was of the opinion that they would not commence coming in for reservations until the latter part of the month, but states that prospective students are certainly plentiful.

President Murphree is a most pleasant gentleman, hence it can easily be seen why he is meeting with such remarkable success with the school, and as soon as he receives the facilities the University of Florida will be numbered among the leading institutions of the South. Its faculty has always been of the highest, the present year being no exception, and all Gainesville should boost and lend every effort to President Murphree for the further advancement of this institution, which is starting out under most favorable conditions.

Senator Milton Says Reform School Is Doing Good Work

MARIANNA, Aug. 6.—Hon. W. H. Milton, president of the board of managers of the State Reform School, says there has been much unjust criticism of the school which pressure of business has prevented his answering until now. He reports that fourteen inmates were discharged last year as reformed and that quite a number have been placed out this year on probation, reports from whom have almost invariably been favorable.

A monthly report on one of these boys says that he is doing fine, work-

ing in a factory, and is well satisfied. He attends prayer meeting twice a week and church three times a week and devotes much of his spare time to reading.

The gentleman who has charge of him says in his report: "I feel so proud of him in his good conduct and I shall ever praise the State Reform School and the good, generous-hearted people and managers of the school. I am sorry the people of South Florida don't visit this great institute and learn the good that this place is to the people of Florida."

Has Married More Elopers Than Any Parson in World

BRISTOL, Tenn., Aug. 6.—The Rev. Alfred Harrison Burroughs, the "marrying parson," of Bristol, yesterday married his three thousandth couple. They are Hugh S. Jones, a young farmer, of Wythe county, Virginia, and Miss Elizabeth Lyeton, of Wytheville. The Rev. Mr. Burroughs claims the world's record. He has made a veritable Gretna Green of Bristol by rea-

son of the discrepancy in the marriage laws of Virginia and Tennessee. Ninety-five per cent of his couples have been elopers from Virginia and West Virginia, under the age of 21. His business has grown by leaps and bounds the last few years, and he has now established a new Mecca within a hundred and fifty yards of the union depot and the Virginia State line.

Paralysis Scourges Babies of a Town in Minnesota

WINONA, Minn., Aug. 6.—Winona is fighting an epidemic of infantile paralysis, which attacks children between the ages of 6 months and 10 years, and, where it does not kill, leaves the victims helpless cripples.

When efforts of the board of health failed to check the growing number of cases, the State authorities were called in. They said the disease

is carried in the dust from the streets into susceptible organs of the children. The thirty or more cases are scattered throughout the outlying districts, the streets of which are not sprinkled.

A special meeting of the council was held and it was decided to sprinkle the entire city, alleys, streets and sidewalks in an effort to rid the city of the germs.

Drove the Wrong Dagger Into Breast of Actress

NEW YORK, Aug. 6.—Mlle. Dazie, an actress, will not be able to assist her company in the production of a pantomime for some time, following a serious stab wound she received in the breast, in full view of the audience in a theatre at Rockaway Beach. Mlle. Dazie's jealous rival on the stage was supposed to stab her to the heart with a dagger, and for this purpose two weapons were employed, one with a shining steel blade, to impress the audience, and the other with a rubber blade, for the actual use of the jealous rival.

In some manner, the rival, Mlle. Lina, grasped the wrong dagger at the critical time and plunged the steel blade into the breast of Mlle. Dazie, inflicting a wound four inches long.

The audience, on hearing the shriek of the wounded actress, and seeing the blood, became wildly excited, but was calmed by a statement from the stage manager. Doctors in the audience dressed the wound and said while it was not mortal, it was sufficiently serious to prevent the actress' public appearance for some time to come.

A Hundred Persons Saw Young Man Commit Suicide

ALBANY, Ga., Aug. 5.—A hundred persons in a business street here yesterday saw Homer Santipher, aged 24, shoot himself in the breast with a pistol after a friend, Walter Keaton, had vainly struggled with the young man to prevent the act.

Keaton was shot through the left hand in a desperate effort to deflect

a bullet Santipher tried to send into his own body. Keaton's wound prevented him from saving his friend.

The two men were sitting quietly together talking, when Santipher suddenly jumped to his feet, cried, "I believe I will kill myself," and pulled his pistol. The second shot he fired struck beneath his heart and he will die.

Attempted Suicide While Confined in the City Jail

OCALA, Aug. 7.—Tom Burrowes, a young white man who was arrested several days ago as a suspicious character, was found Thursday morning lying on the floor of his cell in the city jail with an empty vial and a note giving funeral directions, nearby. Dr. Van Hood was quickly summoned and after a close examination

said that the man would recover, and at his suggestion Burrowes was sent to the county hospital.

How the prisoner obtained the vial, the contents of which are not known, remains a mystery. It was thought by the authorities that the attempt at suicide was only a ruse to avoid work, but the man was in a very weak condition in the morning.

MOTHER SUFFERS PITIFUL DISAPPOINTMENT

BELIEVED IN CURATIVE VIRTUES OF RELICS OF SAINT ANN

But When the Expected Results Failed to Materialize, Her Grief Knew No Bounds.

NEW YORK, Aug. 4.—A little French mother, hugging to her breast a baby of wondrous eyes and shriveled legs, pushed her way through the dense crowd that, from the rising of the sun until long after nightfall, surged in East Seventy-sixth street in front of St. Jean Baptist church, between Lexington and Third streets.

In the church repose what the faithful of Father Le Tellier's parish believe to be the relics of St. Ann. They also believe that these relics—two tiny bleached bones, claimed to have been taken from the wrist of the mother of Mary—have marvelous curative properties when appealed to in a spirit of devout piety and unflinching faith in the efficacy of prayer.

The little French mother's face was aglow with hope and love. Her strength seemed almost superhuman as she made her way through the throng that pressed against the steps of the church and trailed out across the street.

Her baby, aged four, had never walked. Its face was beautifully dimpled. Yellow curls protruded from the white cap that covered its head. The mother crooned to the baby boy as she pressed forward toward the door of the church. The baby's paralyzed limbs lay limp and motionless on a small ironing board, upon which the mother had borne her precious burden from the farthest side.

"In a little while my darling will be like other little boys," she said in French, as she kissed the dimpled cheeks. "You will be touched by the relics of the good St. Ann, mother of the blessed virgin, and you will be cured."

It was then 3 o'clock in the afternoon. The mother, with her pitiful charge, had been in the jostling crowd many hours. A half hour more and she stood strong and buoyant and confident before the priest, solemn and severe in his robes of office. Pressing the helpless baby closer to her bosom, she said her rosary. With trembling lips she kissed the glass case in which lay the relics. Then she put the glass to her baby's lips, and the priest rubbed the receptacle of the sacred relics on the shriveled legs of the child.

As if floating on air the little mother made her way to the nearest exit. There she ripped the bands that bound her baby to the board. Confident that he could walk and romp and play, she put him on his feet. His legs doubled up under his weight and he toppled over on the cement sidewalk. A tiny stream of blood trickled from a gash made in the baby's forehead by the fall.

Seizing the helpless boy and hugging him closer than ever to her breast, she fled down the street crying:

"Oh, Mon cher! Oh, Mon couer adore! Your little mother has sinned again. She must have sinned again or the good St. Ann, mother of the Holy Virgin, would have cured you. Oh, my God! Oh, my God!"

Orlando Wins From Sanford.

From Friday's Daily Sun: With Windham in the box the Orlando ball team defeated Sanford yesterday by a score of 9 to 0. Great rivalry exists between these two places and the winner will receive a handsome cup.

When the digestion is all right, the action of the bowels regular, there is a natural craving and relish for food. When this is lacking you may know that you need a dose of Chamberlain's Stomach and Liver Tablets. They strengthen the digestive organs, improve the appetite and regulate the bowels. Sold by all druggists.

DON'T EXPERIMENT

You Will Make No Mistake if You Follow This Advice.

Never neglect your kidneys. If you have pain in the back, urinary disorders, dizziness and nervousness, it's time to act and no time to experiment. These are all symptoms of kidney trouble, and you should seek a remedy which is known to cure the kidneys.

Doan's Kidney Pills is the remedy to use. No need to experiment. It has cured many stubborn cases in this vicinity.

Can Gainesville residents demand further proof than that contained in the following testimonial?

Oscar Osterman, of Starke, Fla., says: "I give Doan's Kidney Pills my highest recommendation as they proved of more benefit to me than any other remedy I had previously used. I suffered from kidney trouble for some time. The kidney secretions were too frequent in passage and I was forced to arise from six to eight times during the night. I also had backache and was bothered by a pain through my loins. I finally procured Doan's Kidney Pills and they soon helped me. By the time I had taken the contents of two boxes, the backaches and pains entirely disappeared and the passages of the kidney secretions soon became regular. I now feel fifty per cent better than before in a long time."

For sale by all dealers. Price 50 cents. Foster-McBum Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

Gainesville Guards Return.

From Friday's Daily Sun:

The Gainesville Guards, who attended the State shoot at St. Augustine, returned home yesterday, having had a pleasant trip. They succeeded in making a good score, even though they had not practiced for the occasion. Following is the standing:

Jacksonville won the trophy.

Cured Hay Fever and Summer Cold.

A. S. Nusbaum, Batesville, Indiana, writes: "Last year I suffered for three months with a summer cold so distressing that it interfered with my business. I had many of the symptoms of hay fever, and a doctor's prescription did not reach my case, and I took several medicines which seemed only to aggravate it. Fortunately I insisted upon having Foley's Honey and Tar. It quickly cured me. My wife has since used Foley's Honey and Tar with the same success." J. W. McCollum & Co.

An Old-Time Ball Player.

O. G. Barker of Donnie, who is the merchant, sawmill man and, in fact, nearly the whole town in a commercial way, was transacting business in the city Thursday. In the days of long ago he was a member of the "Boston Red Socks," which at that time were the champions of all teams, and while the game is now altogether different, he states he still likes it and had rather see a good game than to eat when hungry. He remained over to witness the game here with Palatka.

Granulated Sore Eyes Cured.

"For twenty years I suffered from a bad case of granulated sore eyes," says Martin Boyd of Henrietta, Ky. "In February, 1903, a gentleman asked me to try Chamberlain's Salve. I bought one box and used about two-thirds of it and my eyes have not given me any trouble since." This salve is for sale by all druggists.

Little Child Dies.

News has been received here of the death of the little infant son of M. Venable, which occurred at Archer on Thursday. The little one had been a patient sufferer for the past several weeks.

Be sure and take a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy with you when starting on your trip this summer. It cannot be obtained on board the trains or steamers. Changes of water and climate often cause sudden attacks of diarrhoea, and it is best to be prepared. Sold by all druggists.

AUSTIN MILLER WILL ESCAPE ALL TROUBLE

OFFICER HAD MADE REMARKS CONCERNING MRS. MILLER.

This Was Direct Cause of the Shooting, as Reported in Press Dispatches Wednesday.

From Friday's Daily Sun:

Considerable interest was manifested in the announcement which appeared in The Atlanta Journal of Wednesday concerning the shooting by Austin Miller of Alonzo Howe, which occurred at Winona Lake, Ind. The press dispatch only partially covered the facts in the case.

Young Miller, who has only recently graduated from a university of law, was in the Indiana town taking a special course, spending the time with his mother and sister, and it was some careless remark made by the officer about Mrs. Miller that led to the shooting.

Mr. Miller first met Howe and endeavored to use a whip upon him, but this was out of the question, owing to the resistance of the officer, and he was compelled to use his pistol, firing at Howe four times, all balls taking effect, but none fatally.

Phillip Miller, father of the young man, was seen, and he having received a number of telegrams regarding the affair, readily gave the information, which is practically as above. The last message, which was from Attorney M. C. Howell, read: "Austin not arrested, and will come out of the trouble. Man will get well. Was shot for making remarks about his mother."

Howe is one of the police officers of Winona Lake and should have been among the last to cast remarks, and the lesson of young Miller is commended by a large number here who are glad that he will experience no trouble in getting out of the difficulty.

TRENTON TOPICS.

Much Building Now Going On—Cotton Sold at 5½ Cents—Notes.

TRENTON, Aug. 5.—The continued ring of the hammer is being heard in Trenton again. R. L. Tison is having an addition built on the hotel, known as the Trenton House. W. F. Beach & Bro. have nearly completed a nice up-to-date part glass front, two-story building, the bottom story to be used for the postoffice. Bud Watson, who lives just across the line over in Levy, a very successful farmer and stock raiser, is also building a large two-story building for rent.

Capt. W. E. Bell has recently put up a large tank, said to hold twelve thousand gallons, with 60-foot tower. The Captain will supply those with water at a very low rate that live near him.

Hardee Bros. are repairing their gin plant and will soon be ready to do as in former seasons—make good samples.

A few caterpillars have been seen in the cotton, but no serious damage done yet. One hundred pounds of cotton was sold in Trenton yesterday at 5½ cents per pound, all trade.

Dr. O. S. Clyatt has returned from New York, where he spent a short while taking a post-graduate course. While there he purchased quite a lot of the latest and up-to-date instruments to be used in surgery, etc.

Mrs. W. H. Gay has returned from North Carolina, where she spent a short time visiting relatives.

Mrs. R. L. Tison is now visiting relatives near Greenwood, S. C., her first visit since she came to Florida seventeen years ago.

Mrs. T. J. Love and little son, T. J., are visiting her daughter, Mrs. Dora Tompkins, near Newberry.

Mrs. J. D. Barron of Richland is visiting A. L. Sanders and other relatives here.

Mrs. P. M. Colson of Gainesville is visiting her brother, Mr. I. N. Sanders, and other relatives.

Misses Emma and Bessie Williams are visiting relatives at Lake City, S. C.

Mrs. D. A. Prevatt and daughter, Mrs. Will Overstreet, of Gainesville, are visiting friends and relatives here.

For indigestion and all stomach trouble take Foley's Orino Laxative, as it stimulates the stomach and liver and regulates the bowels and will positively cure habitual constipation. J. W. McCollum & Co.

Woman's Friend

Nearly all women suffer at times from female ailments. Some women suffer more acutely and more constantly than others. But whether you have little pain or whether you suffer intensely, you should take Wine of Cardui and get relief.

Cardui is a safe, natural medicine, for women, prepared scientifically from harmless vegetable ingredients. It acts easily on the female organs and gives strength and tone to the whole system.

TAKE CARDUI

The Woman's Tonic

Mrs. Verna Wallace, of Sanger, Tex., tried Cardui. She writes: "Cardui has done more for me than I can describe. Last spring I was taken with female inflammation and consulted a doctor, but to no avail, so I took Cardui, and inside of three days, I was able to do my housework. Since then my trouble has never returned." Try it.

PALATKA ENTHUSIASTS ARE SORE OVER DEFEAT

WAS THE MOST EXCITING GAME
SEEN HERE IN YEARS.

Watson Pitched a Magnificent Game,
and Would Have Shut Them Out
But for Errors Behind Him.

(By Jack Shea.)
From Friday's Daily Sun.
Oak Halls 3, Palatka 2.
Palatka, better known now as "Bahlatka," came over here yesterday fresh from two shut-out victories over the Ocala team, and intended to "mop up" with the Oak Halls. The mop, however, was in the hands of the Gainesville players, who did the thing up right, using Mr. Walker, Palatka's star pitcher, as the "soap" to do the cleaning with.

The Palatka tin-horn sports who accompanied the team over on the excursion, carried with them a roll of greenbacks about the size of a pencil, and stuck to their said roll like a leach, afraid to bet a penny.

Watson pitched a magnificent game, and if he had had good support would have shut the River Rats out. Walker for Palatka was wild and could not locate the plate. He claimed that the pitcher's box was too high, that the mound was built there purposely for this game. A poor excuse is better than none, and we will let it go at that.

It was a pretty game up until the ninth, when the visitors succeeded in filling the bases on errors with no one out. At that they only managed to get two men across home base.

In the last half of the ninth inning Gainesville started the mopping and when the job was finished they held the big end of the score.

Palatka played like a set of school boys, not even handling slow infield hits, and the Oak Halls ran bases at will. We fail to see any class in their playing and if they can't do any better than that they had better stay at home.

Hendricks started the fireworks in the ninth. After Spottswood had took first on a pass, Hendricks hit to short, forcing Spottswood out at second. Hendricks, full of determination, promptly swiped second and third, and scored on a passed ball. That "cooked Palatka's goose," for they were up in the air good and plenty, coming down after two more runs were tallied and the game won by the Oak Halls.

The Palatka players contracted a VERY SEVERE case of cold feet and refused to stay over for the game Friday, as per schedule. They cannot boast of Gainesville being quitters, as some of the River Rats' followers did yesterday, claiming the Oak Halls refused to play more than nine innings in a game at Palatka several weeks ago. Palatka got a square deal yesterday, and we fail to see why they did not stay and play the remaining game of the series. Quitters, we guess.

Following is an account of the drubbing in detail:

FIRST INNING—Calhoun out, pitcher to first; Selph hit a hot liner to Watson, who made a pretty catch; Walker fanned. No runs.

Miller hit by pitched ball and goes to first; Allen bunted, forcing Miller out at second; Wakefield struck out, but catcher dropped ball. He picked

it up in time to catch Allen at second and Wakefield at first. No runs.

SECOND INNING—Collins struck out; Bulwinckle did the same; Dillon singled over second; Biel fanned. No runs.

Spottswood flew out to pitcher; Hendricks fanned; Bullock followed suit. No runs.

THIRD INNING—White hit to short, who fumbled it, White safe at first, and a moment later swiped second; Thomas struck out; Calhoun flew out to Allen; Selph fanned. No runs.

Metcalf flew out to right; Watson fanned; Hines did the same. No runs.

Walker, old Swiss movement, popped a little one to Allen and was out; Collins, their slugger, doubled to left; Bulwinckle flew out to right, and Collins was thrown out trying to make third. No runs.

Miller out, short to first; Allen hit to third, who bobbled, Allen safe at first; Wakefield singled to right; Spottswood flew out to center; Hendricks hit to third, who tagged Allen. No runs.

FIFTH INNING—Dillon skied out to left; Biel fanned; White flew out to right. No runs.

Bullock singled to left; Metcalf hit to pitcher, forcing Bullock out at second; Watson hit to right field fence for one base, but Metcalf was thrown out at third, Watson going to second on the play; Watson out trying to steal third. No runs.

SIXTH INNING—Thomas singled to right; Calhoun fouled out to Bullock; Selph sent a high one to right, which dropped safe, but Thomas was forced out at second; Walker fouled out to third. No runs.

Hines struck out; Miller fouled out to third; Allen walked and stole second; Wakefield went to first via Big 4; Spottswood hit to pitcher, out at first. No runs.

SEVENTH INNING—Collins hit to short, who fumbled it, Collins safe on first; Bulwinckle skied out to third; Dillon flew out to center; Biel singled to right, but Collins was thrown out trying to make third.

In this inning Palatka made a change in their line-up. Bulwinckle, who was doing the catching, had his hand hurt, and went to right field, White coming from that position and going behind the bat.

Hendricks walked and stole second; Bullock fanned; Metcalf out, second to first, Hendricks taking third; Watson fanned. No runs.

EIGHTH INNING—White hit by pitched ball and goes to first; Thomas hit to short, both runners safe on error; Calhoun hit to pitcher, forcing White out at third; Thomas caught napping at second and was out; Selph flew out to short. No runs.

Hines hit to pitcher, out at first; Miller doubled to left; Allen hit to pitcher and Miller was run down between second and third; Wakefield out, pitcher to first. No runs.

The Last Inning.

Walker hit to Allen, who made a bad throw to first, Walker safe; Collins hit to Spottswood, who made a mighty effort to get it, but failed; Bulwinckle bunted, safe on first, filling the bases; Dillon walked, forcing the first run of the game; Biel fanned; White hit to center, scoring Collins, but Bulwinckle was thrown out at the plate; Thomas hit to short, out at first. 2 runs.

Spottswood walked; Hendricks hit to short, forcing Spottswood out at second; Hendricks promptly swiped second and third in succession, and scored on a passed ball; Bullock laced out a neat single to left for one base, but on error of fielder, stretched it to second; Bullock takes third on catcher's error; Metcalf walks; Watson hit a slow one down first base line

PATENT IRON ENDS LIFE OF PRETTY YOUNG GIRL

OIL BECAME IGNITED AND EXPLOSION FOLLOWED.

Suffered Agony for Six Hours, All Efforts to Save Her Life Proving Futile.

PUNTA GORDA, August 6.—Miss Mary Sandlin, a beautiful girl of 15 years of age, died here as a result of burns sustained while attempting to use a patent gasoline burning iron. The city is cast in gloom over the sad occurrence.

Miss Sandlin was attempting to operate a patent gasoline iron. Some of the fluid spilled on the piece of cloth she was attempting to iron, and over the ironing board. The fumes generated were of sufficient density to cause an explosion when she struck a match, and in a moment her entire body was enveloped in flame. She ran screaming from the house and the efforts of those near her quickly extinguished the flames. This was not, however, until she had been so badly burned that she died six hours later.

Miss Sandlin was one of the prettiest and most lovable young girls in Punta Gorda and the city was cast in gloom when the sad tidings were carried around the town.

and beat it out, scoring Bullock, and sending Metcalf to third; Hines hit to pitcher and Metcalf scored the winning run. 3 runs.

The score by innings: r. b. e.
Palatka . . . 0 0 0 0 0 0 0 2 — 2 5 1
Oak Halls 0 0 0 0 0 0 0 3 — 3 5 7

*One out when winning run was made.

Batteries—Gainesville, Watson and Bullock; Palatka, Walker, Bulwinckle and White.

Base on balls—Off Watson 1, Walker 5.

Left on bases—Gainesville 7, Palatka 5.

Struck out—By Watson 8, Walker 7.

Two-base hits—Collins, Miller, Bullock.

Passed balls—White 2.

There will be no game today, as the Palatka boys returned home last night with their faithful supporters this being occasioned by a disturbance which occurred after the game had been finished, and which was deeply regretted by all concerned.

Preparations were made for a royal time for the visitors, and among other entertainments a dance was arranged for their special benefit, but the damper was cast on this by the disturbance, and it is regretted that after everything had been amicably settled between the parties they could not see fit to stay and play the game as advertised and let the two teams wind up the series in a friendly way. In deference to the wishes of the parties directly concerned—both Palatka and Gainesville people, and their friends—in the difficulty which occurred after the close of the game, their names are withheld from publication.

Disagreeable at Home.

Lots of men and women who are agreeable with others, get "cranky" at home. It's not disposition—it's the liver. If you find in yourself that you feel cross around the house, little things worry you, just buy a bottle of Ballard's Herbine and put your liver in shape. You and everybody around you will feel better for it. Price 50 cents per bottle. Sold by W. M. Johnson.

Notice to Postmasters.

Remember to attend the League Meeting of Postmasters of Third and Fourth Class of Florida, to be held at Ocala, Fla., August 18th and 19th, 1909. The Montezuma Hotel has offered reduced rates of \$1.50 per day. (MISS) M. W. SARGENT, State Secretary, Avon Park, Fla.

A Weakling

Is the only way to describe the poor child that is afflicted with worms. No matter how much or how often it eats, the worms get all the nourishment from the food—the child gets practically none. White's Cream Vermifuge gets rid of the worms quickly, easily and with no bad after effects. Price 25 cents a bottle. Sold by W. M. Johnson.

Subscribers to The Sun who are in arrears are urgently requested to make settlement without further delay.

Under the postal regulations we are prohibited from extending credit to subscribers for more than one year, and those who have not paid up to August, 1908, will be dropped from the list of subscribers during the next two weeks. The privilege of mailing the paper to subscribers who are in arrears for over a year is denied by the postal laws, and we have been notified to comply with this provision at once. If you fail to receive The Sun after the middle of July you will therefore know the reason therefor.

Do not wait to come to town to pay your subscription, but send the amount by mail at once. DO IT NOW.

Aldrich, Payne, Cannon—when will these three meet again.

At the end of the next fifty years it will be the United Airway Lines.

An Illinois girl jilted a millionaire for a soda dispenser. The influence of soda water on the summer girl is little short of marvelous.

Joy riders, boat rockers and those that point loaded guns "just for fun" seem to vie with each other to prevent an increase of population.

A small sample of the great Napoleon's hair recently sold in England for one thousand pounds. The man who bought it, however, probably makes a terrific howl about the high cost of living.

"Chaplain," said a young criminal in a State prison, holding up his thin white hands, "these hands never worked; do you think they can learn to work?" That was the secret of that young man's criminality. And idleness today is one of the principal causes of crime. Unless boys and girls are trained to honest work they are bound to gravitate towards crime and poverty.

Several life insurance companies have appealed from the decision of the Missouri Supreme Court upholding the State law which forbids these companies paying a salary in excess of \$50,000 per year to any one official. Missouri's view may be a bit old-fashioned, yet there is little doubt that policy-holders will consider it quite sound.

Someone has recently prophesied that Christ will appear within the next three years. People do not pay the attention to such prophecies as they formerly did because they rightly believe that those who make such statements are speaking of what they do not know. People today are also practical and realize that to lead a true, upright and useful life is of far more account for this world and the next than to spend time in visionary thought.

GOVERNMENT COTTON REPORT.

One of the largest areas which this country has ever planted in cotton has one of the lowest conditions of the crop in recent years of record. The condition of 71.6 as of July 25 means a low yield per acre. The decline since May 25, when 81.1 was the condition to 71.6 two months later shows that the crop lost as much as 9.5 per cent in these sixty days, says The Wall Street Journal.

It is now within a month of the beginning of the new crop year on September 1. August is not a period during which the crop gains in condition. The lowest average yield per acre in ten years was 169 pounds, which occurred in 1901 on a July condition of 77.2. Later years have shown better average yields per acre even on a lower condition. Under existing circumstances a yield of 180 pounds an acre seems to be fairly inferable. From that a crop of 11,500,000 bales could be gathered against one of 13,587,000 bales last year on a little larger acreage.

The Government's report had the effect of causing an immediate rise of nearly a third of a cent a pound in spot and future prices. Evidently the trade was hardly expecting so much of a decline during July. The weakness of the situation from the growing viewpoint lies in the West where Texas has only twice within a month had general yet inadequate rains following a dry winter and spring. But even in the western end of the belt there are excellent conditions to be found as well as discouraging ones, with the latter predominating.

Although the tendency at present seems to be in the direction of the view that the market has already discounted an adverse condition report, there is no doubt as to the effort of the government's latest returns in the advance of prices. It is not too much to say that a thirteen cent basis for spot cotton in August is likely to be the rule for the present. The remote future months are certain to be similarly affected until a new stage of the crop's growth gives assurance to the contrary. The low condition and low promise of yield is quite out of proportion to the consumption needs of the world in prosperous years, and higher values for the staple are the inevitable result.

STICK TO THE TRUTH.

Several of the State papers are sounding a warning against the "land sharks," who seek to deceive the people of other sections into buying worthless Florida lands, through colored descriptions and false representations. The Florida press stands almost as a unit for a fair deal for all, and the fight against the land shark is prompted by humane considerations, as well as the certainty that such methods inevitably will react to the great detriment of the State.

The News receives many letters from prospective settlers and investors in Florida, and invariably the answers are couched in conservative terms. The advice is always given to come and see before a purchase is made, where this is possible. The suggestion frequently is vouchsafed that if the inquirer has good health and is doing reasonably well, he had better let well enough alone and stay where he is. We want people—the State's greatest need is people—but we will be hurt instead of benefited by people who may come here under a mistaken conception of conditions, or who find they have been gulled by a lot of elaborately printed literature.

There are a number of colonization schemes, conducted by honorable promoters, the investor in which will get his money's worth. Perhaps the man who buys a ten-acre "farm" on installments will not always find it, upon investigation, to exactly conform to his Northern ideas of a home-site; but values are advancing rapidly in Florida and "cut-over" lands that are sold for \$10 an acre today in many instances will be worth double that in a few years. On the other hand, there are unscrupulous dealers who are selling to trustful people lands which are worthless and which will always remain so.

Therefore the non-resident should investigate carefully before buying. And newspapers and those getting out matter to advertise the country should not color things, but present a picture of conditions as true to life as possible. The truth about Florida is good enough. Stick to the truth.—Lakeland News.

PRESIDENT TAFT SIGNS THE PAYNE TARIFF BILL

Both Houses of Congress Adjourned Sine Die Officially at 6 O'clock Thursday Night.

WASHINGTON, Aug. 6.—The tariff has been revised and the extraordinary session of Congress has been brought to a close. Both houses adjourned sine die officially at 6 o'clock last night. The actual adjournment was taken in the House at 5:38 p. m. and in the Senate at 5:58 p. m.

The closing hours of the session were attended by scenes of a most uninteresting character. The revision had been according to the desires of some, and with the hearty disapproval of others, and the last two days had been consumed by members of the Senate in expressing their satisfaction.

The conference report on the bill was agreed to by the Senate by a vote of 47 to 31. The vote was taken at 2 p. m. and soon afterwards the concurrent resolution making certain changes in the leather schedule was adopted by both houses.

President Taft arrived at the capitol at 4:45 p. m. It was his first appearance there since his incumbency as President, and there was a constant procession of handshaking, statesmen filing through the President's room from the time of his arrival until his departure at 5:50 o'clock.

Just as the hands of the gold clock in the President's room reached five minutes past five, the Payne tariff bill, as the measure will be known, was laid before the President. He picked up a pen supplied by Chairman Payne of the House Ways and Means Committee, and which was used by both the Vice-President and Speaker in signing the bill, and attached his signature.

After writing "William H. Taft," the President added, "Signed five minutes after 5 o'clock, August 5, 1909—W. H. T." Bending over the President as he affixed his signature were Secretary Knox, Secretary McVeagh, Attorney-General Wickersham, Postmaster-General Hitchcock, Secretary Nagel, and Secretary Wilson. Standing about the table were Senator Aldrich, Representative Payne, and many other members of the Senate and House. Mr. Payne stood with hand extended waiting to receive the pen with which the bill was signed. He took it with a picture of boyish glee overspreading his face. Another pen was handed the President and he wrote the word "Approved" and handed the pen to Representative Langley of Kentucky.

A number of interesting incidents occurred in the President's room pending the signing of the tariff bill. The President had something of a personal nature to say to each Senator, and good nature appeared to be overflowing.

The delay was due to Representative Payne's desire to convey personally the document to the President. He did not arrive at the President's room until after 5 o'clock.

Previously the President signed a

number of comparatively unimportant measures.

Immediately after attaching his name to the general tariff bill he signed the Philippine tariff measure. He used a handsome mother of pearl pen, sent to him from the Philippines, to be used in signing this measure. A broad smile of satisfaction overspread his face and he wrote his name with a flourish not shown on the general tariff bill.

Signed in a Storm.

When the President arrived at the capitol the sun was shining brightly, but soon after heavy black clouds rolled up, and the electric lights had to be turned on. Peals of thunder and vivid flashes of lightning came from the sky. When members commented upon the brewing storm, the President said they ought to be used to such manifestations, as the conditions outside were comparable with the storm which had been going on inside. Apparently he did not take the storm as an ill omen.

The President Jocular.

Senator Talliaferro of Florida in rather a plaintive tone, said: "Mr. President, surely you are not going to sign the bill with that pineapple paragraph in it?" He referred to the fact that he secured an increase duty on pineapples in the Senate, which was eliminated in conference. "What would you have me do? Shall I strike out pineapples altogether, or just write in a rate to suit you?" asked Mr. Taft, laughingly. Senator Fletcher of Florida, when telling the President goodbye, soon after, was dismissed with a "good-bye, old pineapples, take care of yourself." The President tried with his good nature to mollify Senator Warren for his disappointment over the abolition of the duty on hides, and greeted Senator Heyburn, who said on the floor that no rate in the bill was too high to suit him, with a "How are you, old high tariff?"

When the Senate and House committees appointed to inform the President that Congress was ready to adjourn, called at the President's room, the tariff bill had not been signed. Senator Aldrich made his brief and formal announcement.

"Well, I have not signed the bill yet," said the President, "do you think that I ought to adjourn Congress before I sign it?"

There having been much talk about the possibility of a veto, everybody in the room caught the significance of the President's jocular query. "I certainly do not," replied Senator Aldrich, joining in the laughter.

"I must be going, for we are off to Beverly tomorrow," said the President, as the hour of adjournment was announced. He left the capitol at 5:50 o'clock to return to the White House through a driving storm, but the coverings of his touring car saved him from a drenching.

Alabama's New Prohi. Bill Up to Governor Comer

MONTGOMERY, Ala., Aug. 7.—The Carmichael prohibition bill, far more drastic than the present statutory State-wide prohibition law, which passed the Senate yesterday afternoon by a vote of 28 to 2, and which now awaits only the signature of Alabama's prohibition executive before it becomes a law, has already scored a far-reaching effect so far as the operation of locker clubs and near-beer saloons are concerned. From all parts of the State come reports that with the news of the passage of the Carmichael bill near-beer saloons and clubs wherein liquors have been dispensed to members under the locker

system were dismantled and tonight the State is almost as dry as it will ever be.

In Montgomery, even social clubs of the highest class have been closed and early in the afternoon the near-beer men began to remove all drinkables from their places. With considerable caution, a few of the saloons are disposing of occasional bottles of the amber fluid of the "near" kind, but even those of the quenchless thirst are extremely cautious in attempting to secure drinkables.

Governor Comer will probably not sign the Carmichael bill until Monday afternoon. Both houses adjourned yesterday until Monday.

Other Leaders Remain Unchanged Except for a Great Advance Over Former Vote.

Only one and a half more weeks until the final ending of the largest and greatest contest ever waged in this section, and the contestants will know who are the successful winners.

The contest will close on Wednesday, Aug. 18th, at 6 p. m., all of the votes being taken in at that time and nothing received except what comes through the postoffice, and bears postmark of having been mailed previous to that hour.

It will be noted that all the leaders still hold their positions with the exception of Miss Gertrude Guinn, who takes first in the Northern section by having nearly 300,000 votes in the count Saturday.

Following is the result of the canvass:

COLORED MAN DROPS DEAD ON STREETS

WAS CAUSED BY HEMORRHAGE OF LUNGS, DOCTOR STATES.

Friends Took Remains to His Home West of Gainesville for Interment.

Great excitement was created on West Union street Saturday afternoon about 5 o'clock when John Whittaker, one of the well-to-do colored farmers residing about nine miles west of Gainesville, suddenly dropped to the pavement and died before aid could be given him.

The man came across West Union street, near Seagle's store, and when just opposite the place, fell. He was hurriedly picked up by parties standing around and Dr. R. B. Ayer, who was in his place, rushed to Whittaker's assistance, but before he could be removed to the offices, he expired.

Justice Carlisle viewed the remains, together with Sheriff Ramsey, and after hearing the statement of the physician, deemed that an inquest was unnecessary, as the doctor was fully satisfied that he died from hemorrhage of the lungs, by the bursting of a blood vessel.

Dr. Ayer stated that it was only about fifteen minutes previous that Whittaker was in his place, complaining of a cough, and having previously bought a patent medicine which helped him, purchased another of the same kind, and was at that time complaining of his chest, a cold having settled there.

The remains were taken in charge by colored friends of the man and carried to his home west of Gainesville, where the funeral will probably be held today.

GOOD DEMAND FOR SEA ISLAND CO

SAVANNAH, Ga., Aug. 7.—The market for Sea Islands has ruled with a good demand, resulting rather large sales for the season and leaving stock pretty well depleted, especially of the higher grades. Prices remain unchanged, but sales of average lots were have been made at rather better prices.

Crop accounts continue favorable but there are still complaints much rain over nearly all the land territory. These conditions give the plant a look of luxuriance and promise, but the use is apt to be more or less tentative. There are complaints of fruiting and also of shedding, serious complaints so far.

Sales for the week were 512. The following prices were based on factors' quotations and are weekly on Fridays:

Negro Entered Lady's Room in Dead Hours of the Night

GAINESVILLE, Ga., Aug. 7.—Edwin Matthews, colored, night porter at a local hotel, early yesterday morning had his throat cut by Mrs. Mamie Lawson for entering her room through a window.

Mrs. Lawson arrived Thursday night from Jefferson, Ga., and was assigned to her room, Matthews being directed by the night clerk to perform this duty.

Later Matthews knocked on the door and asked to enter to see about a key, which he did.

Mrs. Lawson became uneasy after the negro left and fastened her door

securely, the negro having acted queerly.

Between 1 and 2 o'clock in the morning she was awakened by someone sitting on the side of her bed. She instantly grabbed a knife which she had placed under her pillow and cut the negro's throat, inflicting a serious wound.

Matthews was then carried to the county jail, where he was kept until 3 o'clock in the afternoon when Sheriff Crow carried him to Atlanta for safe-keeping, intense feeling having been engendered by the negro's action.

THE FLORIDA STATE COLLEGE FOR WOMEN

TEACHERS' SUMMER TRAINING
SCHOOL WILL CLOSE TODAY.

The Attendance Has Been Good and
Splendid Work Accomplished
in All Departments.

TALLAHASSEE, Fla., Aug. 5.—The regular Summer Training School which closes tomorrow has been well attended. The usual number of departments, the one including students in the course for State certificates, another for first and second-grade certificates and still another for primary training, have all done good work.

Prof. Vernon of the State University has had a large, enthusiastic class in Agriculture, and already a number of teachers are planning to carry out his teachings by connecting some gardening and tree-planting with the regular school work.

Dr. Murphree visited the Summer School after his return from the National Educational Association in Denver, and gave a most inspiring talk to the student body. He spoke with much enthusiasm on the industrial phase of education, which seemed one of the great features of the N. E. A.

Prof. Buchholz also visited Tallahassee on his return from Denver and San Antonio. He gave a splendid talk to the ladies in the class of Primary training, and in the afternoon addressed the entire student body on the importance of professional training.

The visit of both Dr. Murphree and Prof. Buchholz gave great pleasure to all present, the former having served as president of the College for so long and the latter as dean.

Supt. Holloway paid the school a visit and gave his hearty encouragement to every department. It is his purpose to make these schools as far-reaching in influence as possible.

The College correspondence indicates a full attendance for next season. There is always a hum of business on College Hill throughout the vacation. Dr. Conradi took charge July 1st, and is busily engaged in getting things ready for next year. His enthusiasm and energy are characteristic with that high degree of skill and ability that has already made for him a reputation in Florida.

The last session of the Legislature, by its generous appropriation, made it possible for him to enlarge the scope of work in some lines. The campus is undergoing improvements and a laundry will be put on the grounds this season.

Every department of the College, the College of Liberal Arts, the Normal School, the School of Fine Arts, and the Department of Home Economics, give promise of increased attendance.

Dr. McNeill, of the Department of Science, is accomplishing fine work in the University of Chicago at this time. The director of that institution has most enthusiastically commended Dr. McNeill's work in zoology, stating that it shows several new and important discoveries in that branch of science.

The news records from Georgia show that the Legislature of that State has made it compulsory for girls to learn cooking and housekeeping in the schools, but we feel that Florida will have no occasion to legislate on that question, for the enthusiasm over our department of home economics indicates a rapid and steady growth. So many girls desire to learn cooking and sewing that it has become necessary to put in an additional teacher. Miss Agnes Harris will be the director of domestic science next year, and Miss Hallie Lewis of domestic art.

Our popular secretary and treasurer, Mr. J. G. Kellum, has had no vacation yet, but he hopes to get away for a short time before school opens in September.

Mrs. Reynolds, our much-beloved lady principal, who has been suffering for some weeks from a fractured limb, is convalescing, and expects to be on duty at the opening of next session.

Many of the regular teachers are already away on a vacation, and others who are teaching in the Summer School will get away after August 15. It is a little change.

CONTROLLING STOCK PURCHASED OF T. & J.

SUPERINTENDENT GLASS CONFIRMS RUMOR OF TRANSFER.

Earnings of Road Have Been Increased and Handsome Showing Is Now Made.

From Friday's Daily Sun.

It was learned yesterday that the railroad property known as the Tampa and Jacksonville railway passed into the hands of new owners Wednesday—that is, the deal was closed whereby the large brokerage firm of F. J. Lisman & Company of New York assume control, having purchased a controlling interest in the common stock previously held by Florida stockholders and local interests. This firm controls several railroads over the country known as the Lisman Lines and are well-known as experienced railroad men.

It is understood that the new owners will immediately commence improving the property and in the near future commence on the extension work, which has been under contemplation for some time. It is further understood that the excellent showing made by its general superintendent, A. L. Glass, during the past year is responsible for the sale, the Tampa and Jacksonville railway having made over ninety thousand dollars last year gross and saved over twenty thousand dollars in operation over the previous management of the property, thereby bringing the property before financial interests that resulted in its present change.

The annual meeting will be held some time this month, when the policy of the new management will be promulgated and its new organization made effective.

Take Notice.

All persons are recommended to take Foley's Kidney Remedy for backache, rheumatism, and kidney and bladder trouble. Arrested for Selling Cigarettes.

From Saturday's Daily Sun.

P. Cardulles was arrested yesterday by Marshal Arnoff for selling little Major Daughtrey, son of A. L. Daughtrey, cigarettes. It was stated that the little fellow smoked several of them and was deathly sick for a while, it having been necessary to send for a physician to restore him.

Active at 87.

This would be unusual news if men and women would keep themselves free from rheumatism and all aches and pains as well as keeping their muscles and joints limber with Ballard's Snow Liniment. Sold by W. M. Johnson.

S.S.S. CURES BLOOD POISON

When the blood becomes infected with the virus of Contagious Blood Poison, the symptoms are soon manifested. The mouth and throat ulcerate, copper-colored spots appear, a red rash breaks out, the hair begins to come out, and usually sores and ulcers show themselves on different parts of the body. At the first sign of the disease S.S.S. should be taken, for the trouble is too powerful and dangerous to trifle with. If allowed to run on the tendency is to work down and attack the bones and nerves, and sometimes it makes a complete physical wreck of the sufferer. The disease can make no such headway if S.S.S. is commenced and used according to directions; its progress can be stopped, the poison removed, and health preserved. S.S.S. goes into the blood and removes the insidious virus, cleanses the circulation and makes a complete and permanent cure by driving out the cause. S.S.S. quickly takes effect on the blood, and gradually the symptoms disappear, the health is improved, the skin cleared of all spots, sores and blemishes, and when S.S.S. has thoroughly purified the circulation no trace of the disease is left. S.S.S., a purely vegetable remedy, cures Contagious Blood Poison because it is the greatest of all blood purifiers, tested and proven for more than forty years. Home treatment book and any medical advice free to all who write.

MRS. CASTLE GIVES VERSION OF SHOOTING

SAYS CRAIG HAD PISTOL WHEN IT FIRED ACCIDENTALLY.

Appeals to Him to Drop the Prosecution But He Refuses—She Fails to Get Bail.

NEW YORK, Aug. 5.—Mrs. Neville Castle, the woman from California who had a difference of opinion with Mr. William D. Craig as to whether Mr. Craig, whom she shot but did not seriously injure Tuesday night in the Waldorf Astoria has pursued her or she him, found no mercy yesterday in the man she says loves her. Nor had anyone gone on her bail last night.

Craig refused to dismiss his complaint against her and when she laid her hand on his shoulder in court and pleaded gently, "Will, please drop it, won't you?" he turned brusquely and left the room. She was held in \$3,000 bail for further examination.

In the matron's room of the Jefferson Market prison Mrs. Castle gave out a statement interrupted by bursts of weeping, in which she intimated her negro servant could give testimony in her support.

"The night before last," she said, "Will (Mr. Craig), called at my house about 7 o'clock. Something occurred that I swore I would punish him for. I had my servant put him out. He said things which he said he should tell somebody. I said he shouldn't."

"If you had sisters you would have told them to act just as I have acted."

"Last night I went to the Waldorf Astoria to make him retract. I told him it would have to be in the presence of the negro because he had been in the room and heard. When I met Will he said, 'I wish I was dead, that Kate was dead, that you were dead.' Kate, you know, is his wife."

"Then I drew this crazy little affair" (the pistol she carried in her hand bag). "He grabbed it and it went off."

Mrs. Castle has been highly excited ever since her arrest, but up to the time of her statement last night she denied any attempt to "push" anyone. She drew her pistol, she has stated hitherto, with intention to commit suicide.

LONE MAN ROBBED A MINNESOTA BANK

PURSUED BY CITIZENS AND SHOT TO DEATH.

He Succeeded, However, in Killing One of His Pursuers and Wounding Four Others.

WHITE BEAR, Minn., Aug. 6.—In a pitched battle with rifles and revolvers yesterday following a bold robbery of the First State Bank of White Bear, Robert Pohl, said to be an ex-convict, and Edward Larken, chief at the Five Forks, a Bald Eagle Lake cottage, were killed and four others wounded. William Butler, a fisherman, was perhaps fatally wounded.

The dead: Robert Pohl, the robber, and Edward Larken.

Pohl, who is believed to have been a professional crackman, took a check for \$7 to the bank. He produced an automatic rifle and demanded all the cash in the bank. The cashier complied.

As the robber dashed out of the bank with \$5,650 Cashier Auger raised the alarm, and citizens pursued the man to a lumber yard.

Larken entered the yard, and was shot through the heart.

A desperate battle ensued with the self-constituted posse, during which at least 500 shots were exchanged. John Brachvogel, one of the posse, finally winged the robber in the arm. The man dropped his weapon, but picked it up again, and as he turned to fire Brachvogel shot him dead. Fifteen bullet wounds were found in his body.

What Is Best for Indigestion?

Mr. A. Robinson of Drumquinn, Ontario, has been troubled for years with indigestion, and recommends Chamberlain's Stomach and Liver Tablets as "the best medicine I ever used." Dr. Cline's Troubles.

Thoroughly disillusionized and stunned by the revelations of the last few weeks, the pretty child-wife of Dr. A. E. Cline, a veterinarian, left New York News today for Ocala, Florida, accompanied by her sister, Miss Tillie Cline. Cline is now in jail at Fredricksburg, where he is held on a felony charge. A few days ago he was wanted by the local authorities for alleged passing of worthless checks on some Washington avenue merchants.—Newport News (Va.)

SENSATIONAL SHOOTING IN BIG ATLANTA HOTEL

ATLANTA, Ga., Aug. 5.—Warrants jointly charging William White and his wife, of Nashville, with assault with intent to murder, were sworn out in Justice of the Peace Ridley's court by Sergeant Newport Lanford, of the detective department, yesterday afternoon, and at 4 o'clock man and wife were transferred from the police barracks to the Fulton county tower.

Michael P. Anderson, the steward at the Aragon Hotel, who was shot in the abdomen by White when the latter is alleged to have discovered Mrs. White in Anderson's room on the fifth floor of the hotel, is still in a serious condition at the Elkin Sanitarium. Reports from his bedside are encouraging, the wounded man is resting easy, and apparently suffering no pain.

The removal of White and Mrs. White from the police station, where they spent Tuesday night, was done at the instance of Chief Jennings, who gave instructions that formal charges be preferred in the nature of warrants. Mrs. White was held at the station house, it is understood, as a witness, but she is now charged with equal blame in the shooting of Anderson.

The date for a hearing has not yet been set, but will occur in Judge Ridley's court, on Decatur street, where the warrants were issued.

When Mrs. White, accompanied by

a detective, passed through Recorder Droyles' courtroom on her way to the Tower the police court was in full session. Dressed in black and slightly pale from evident nervous strain, her appearance in the court room caused a sensation. There was an audible A-h-h-h and everybody craned their necks to get a glimpse of the woman in the case. She first went into the detective department, where she was rearrested on the warrant, and then taken to the jail, accompanied by a detective, who carried her suit case. White was removed later.

Though Mrs. White claims that the wounded man is a friend of her family, it is believed by the detectives that she was infatuated with Anderson. Anderson is quoted as stating that Mrs. White came into his room for a chat without his invitation, and that he was not responsible for her alleged presence there.

Both Mr. and Mrs. White are maintaining silence with reference to a statement concerning the cause of the shooting, acting on advice of their attorney, Paul Johnson.

It is expected that the statement of Anderson, which was made by him to Police Captain Beavers before being operated upon, will form the State's strongest evidence.

Isn't there something which only a want ad. can do for you today?

Legal Battle Is on for Freedom of Yellow Dog

ATLANTA, Aug. 5.—Four lawyers, a sheriff, five or six of his deputies, a negro woman and a learned judge are tangled up in an argument over one yellow mongrel dog from which a writ of habeas corpus was petitioned here yesterday.

The dog is known as "Wilbur" and is held as a witness in an assault case. The animal is believed to be one that was with William Webb, a negro, when he assaulted Mrs. Exa Brown, a young white woman. Webb narrowly escaped lynching. The victim identified the dog and the State ordered the dog locked up until the trial, when it will be expected to identify Webb by running up to him in court.

Grace Davis, a negress friend of Webb, owns the dog and she hired

lawyers to get the dog out of custody. The petition recites that Grace is a "female of the genus Africanus," that she is the owner of the dog, that the sheriff illegally and unlawfully restrains the dog of his liberty by means of a hempen rope. The petition further declares that the "afore-said canine is of a tender age, under six years, is uneducated and knows nothing of the solemnity of nature of an oath and therefore could not be a competent witness in any event. Further the said canine has been entitled to three square meals a day and the privilege of all canines at night of baying the moon and hunting fresh eggs in the neighborhood."

The sheriff did not consider the writ a joke and became very angry. The Ordinary of the county was granted the writ and will hear the case today.

Woman Asks for Divorce; Husband Serving Sentence

TAMPA, Aug. 4.—Three divorce suits were placed on the docket Monday, one of which is of more than passing interest. Walter Geiger is being sued for absolute divorce by his wife. Geiger is serving five years in the turpentine camp for securing \$280 under false pretenses, and it is thought his misdoing and the disgrace of his sentence is the basis of Mrs. Geiger's complaint.

Geiger was a former resident of Tampa and upon leaving secured from the American National Bank a cashier's check for \$280, which he did not cash in. Later he returned to Tampa and made claim of losing the original check. The bank issued a duplicate cashier's check for the amount. Geiger then went to Jacksonville and cashed the duplicate, and

later presented the original and received the face of the check. The two checks turned up in due time at the American National Bank, but Geiger had flown. The matter was placed in the hands of the sheriff's office and Chief Deputy L. J. Lester gave it his personal attention.

Geiger soon afterwards wrote from Montreal, Canada, to a friend in this city and the letter fell into the hands of the chief. He had given no city address, but had written on letter paper of a restaurant. He wired the police of Montreal these facts and they nabbed Geiger, who fought extradition for three months. The Tampa authorities won out on the case and Mr. Lester went to Canada and secured his man, who was tried and sentenced as above stated.

Georgia Legislature Affirms Suspension of McLendon

ATLANTA, Ga., Aug. 6.—The House of Representatives has affirmed the suspension of former Railroad Commissioner McLendon by the overwhelming vote of 129 to 40.

The suspension of McLendon

now stands affirmed under the law. The next step in the case, it is understood, will be his appeal to the courts to set aside the verdict of which the final legislative word has been written.

CHERRY SINK SCHOOL

Has Largest Enrollment of Any of the Summer Schools.

LOTTIEVILLE, Aug. 6.—The Cherry Sink school, which has been in session since July 5th, has enrolled up to date, ninety-three pupils. We have the largest school now in session in Alachua county and the pupils are making unusual progress. It is only a two-months' school, and for each month we keep an "Honor Roll." The names on this roll show good behavior and hard work for the pupils who bear them. The following is the roll for July: Stanton Osteen, Aaron Polk, James Smith, Festus Roberts, Carl Roberts, Eugene Colson, Singleton Barker, George Mikell, Charlie Matthews, Lora Roberts, Lula Matthews, Avie Everett, Bessie Roberts, Lottie Mikell, Lizzie Curry, Ellie Caraway, Effie Curry, Isabel Curry, Sallie Everett, Mertie Ward, Alice Clark, Olive Clark, G. Dysentery is a dangerous disease but can be cured. Chamberlain's Colic, Cholera and Diarrhoea Remedy has been successfully used in nine epidemics of dysentery. It has never been known to fail. It is equally valuable for children and adults, and when reduced with water and sweetened, it is pleasant to take. Sold by all druggists.

A forceful example of the policy of setting aside for a rainy day is that of the Pennsylvania railroad planting a million young oak trees to be used as ties later on.

URGENT DEFICIENCY BILL WAS ADOPTED BY HOUSE

WASHINGTON, Aug. 5.—Carrying an aggregated appropriation of \$1,100,000, or \$666,000 more than was originally reported, the conference report on the urgent deficiencies appropriation bill was adopted by the House yesterday.

Bitter opposition was directed against the provisions of the bill respecting the establishment of a customs court and providing for the purchase of automobiles for the Vice-President and the speaker, but all attempts to send the report back to the conferees for amendment were defeated. The bill, as passed, made no provision for the payment of salaries of judges and officers of the court.

Objection from Mr. Macon (Arkansas) forced the House to take a recess immediately after convening in order to enable the committee on rules to bring in a special order to enable it to consider the conference report on the urgent deficiency bill.

Incensed at this turn of affairs, Mr. Hughes (West Virginia) declared that the business of the House should not be delayed "simply to humor some whim of Mr. Macon's."

"I don't appreciate any such gratuity as that," said Mr. Macon, more abate than ever.

The Republican leaders after being in session seven minutes, mustered up enough votes to force a recess for half an hour in order that the committee on rules might bring in a resolution covering the case.

The thirty minutes up, Mr. Dalzell

offered a rule under which the conference report on the urgent deficiency bill would be taken up. This was put through with a whoop. Democrats generally refusing to support the Arkansas member.

The report appropriates \$25,000 pay expenses of the proposed customs court, but does not provide for organization of the court. It makes the following appropriations among others:

One hundred thousand dollars to the Department of State for trade and treaty relations; \$10,000 for collecting the corporation tax; \$12,000 for automobiles for the President and Speaker.

The report also authorizes construction of the isthmus canal to the extent of the amount of bonds authorized, and a rate of not to exceed 35 per cent over those of 1908 charged by insurance companies for bonding Government officers.

Mr. Tawney explained that a customs court could not be in operation for several months, no provision had been made for the salaries of the judges. He did not believe appointments would be made the next session or the Government would be embarrassed terribly.

The report was not adopted. Mr. Clark (Missouri) had forced roll calls.

WOMAN'S ASHES TO GO TO THE FOUR WINDS.

CHICAGO, Aug. 5.—Remarkable funeral rites will take place Sunday morning when the ashes of Mrs. Rosa Peyton will be scattered to the four winds in mid-lake. Her husband, Dr. L. S. Peyton, 29 years old, was lost in Lake Michigan, with seventy-five other victims, in the wreck of the Alpena, an excursion steamer.

Hoping during the years since she last saw her husband alive that he might return to her, Mrs. Peyton at every opportunity crossed to Michigan on excursion steamers. Often she carried flowers with her and scattered them in mid-lake, the only known grave of her husband.

To her friends she often expressed the wish that her ashes, like the flowers, would be scattered over the waters.

REWARD ORDERED PAID.

Special Agents Bryan and Pinkoson
Rewarded for Kelley's Arrest.

From Saturday's Daily Sun:

At their meeting this week the Board of County Commissioners ordered the reward of \$200 offered for the arrest and conviction of the murderer or murderers of W. C. Sellars at High Springs in August, 1906, paid to L. B. Bryan and Chas. Pinkoson.

The payment of this reward has been held up for some time on account of the claim of E. Leonard of Lakeland, who asserted that he worked up the case against J. M. Kelley and D. M. Davidson, but after waiting several weeks for Leonard to produce proof of his assertion, and upon his failure to do so, the commissioners ordered the reward paid as above stated.

Water Again Turned On.

Water at all of the public drinking troughs of the city has again been turned on and the dumb animals can now be properly attended to. The action in cutting off the water was caused by the scare of glanders a few weeks since at Ocala, and it was thought best to cut off the service until the worry was over from traveling horses passing this way.
